

Parking Fee Information

- The 2016 parking fee is \$5/vehicle when applicable
- Fees for parking are collected on all weekends and also for special events/tournaments regardless of the day of the week.
- Parking fees will be collected on weekdays when games have been rescheduled from an originally scheduled weekend game in order to achieve budget projections.
- To encourage participation and help keep league fees low, the Waukegan Park District's youth sports affiliate groups do not pay for field use, rental or maintenance costs. To help offset the cost of maintaining the sports fields the adult, youth and tournament groups will be charged a parking fee.
- Everything the park district does is subsidized by tax dollars. Although the parks, programs, services and facilities have a value and benefit to individuals, families, the environment and the economy, a strategy of the district is to generate non tax revenue for cost recovery and lessen the burden to taxpayers.
- Parking fees at the Waukegan SportsPark were established to provide a revenue stream in recovering operational costs at the SportsPark. This item was identified in the initial financial pro forma with both the Manville and Orchard Hills site.
- In an effort to promote sustainability and going green - carpooling is encouraged to save on parking fees and on gas consumption. Signs promoting this are posted.
- There is no charge for cars that may wish to enter the site to drop-off and/or pick-up children by the fields. People who need to drop of children simply need to indicate to the attendant that they are dropping off or picking up and their license plate number will be recorded at the entry to ensure the individual leaves after dropping off/picking up the children. Tickets may be issued for vehicles that have circumvented the pay system.
