1. There are currently DuMor benches and trash receptacles on site at Rose Park. The products will match the existing site amenities at the park creating uniformity and continuity. The majority of other parks within the district have DuMor products as well and to continue with continuity we are desiring to purchase products for those park sites as well.
2. DuMor products are sold through representatives in set sales territories. Therefore, there are no competitors with the same products and the only provider for the site amenities we specify.

Due to the size of the order the sale representative is offering a substantial discount.
